**Customer Advisory #180 – 2009
Potential Rail Delays in US
Christmas and New Year's Holidays**

Dear Valued Customer,

Due to anticipated rail volumes being lighter than normal, **rail shipments originating or terminating on Thursday, December 24th, through Sunday, January 3rd, may experience delays of destination availabilities** between 24 and 48 hours. Inland rail cutoffs will be advanced at least 48 hours to compensate for the anticipated delays. It is important to review the cutoff date listed on your original booking confirmation to assure that you advance the date by 48 hours for affected rail cargo.

Thank you for your continued support. If you have any questions please call our Customer Service Team at 877-556-6308. For current schedule activity, please visit our Web site at www.cma-cgm.com.

Best regards,
