

CMA CGM+

CARE
Protect your business

AQUAVIVA SEAFOOD SOLUTION

A new technology designed to keep live lobsters and other seafood in ideal conditions so you can guarantee first-day quality even after a long shipping period.

YOUR BENEFITS

enhance seafood quality, reliable conservation.

BEST QUALITY AND FRESHNESS

Conditions replicate natural habitats to enhance seafood quality, reliable conservation.

THE MOST ECONOMICAL TRANSPORTATION MODE

A profitable solution and global service reaching almost every destination in the world.

THE MOST ECO-FRIENDLY AND RESPECTFUL SOLUTIONS

Optimal conditions for live animals. Also eco-friendly, including water management to avoid any waste.

HOW DOES IT WORK?

- The unit is equipped with a filtration and oxygenation system to store the living lobsters or other seafood in their natural habitat.
- Water is ballasted every 2 hours during the voyage, ensuring your cargo always travels in clean water.
- The mortality ratio is lower than 1%, even 3 months after container arrival.
