CMA CGM Poland has developed a unique product on Polish market: Inland depot ready for reefer operations

The new depot, located in Central Poland, Warsaw area, is prepared for inland reefer containers logistics operations, together with full M&R and PTI.

Depot accepts both Non-Operating and Operating Reefers and it is perfectly located, close to the reefer business concentration.

This innovative solution has been combined with, but not limited to, opportunity to arrange Carriers Haulage to/from Central Poland, based on one-way reefer carriage.
