

HUMANITARIAN AID CARGO

APL has the global resources to ship your humanitarian aid and relief cargo safely and securely

By its nature, humanitarian aid and relief cargo travel to places that are difficult to access. APL has the experience and know-how to safely trans-load, relay, offload and deliver your cargo to its final destination – almost anywhere around the world. As an experienced U.S. Flag vessel operator with years in the business, we have the capability to efficiently deliver all types of cargo, including U.S. flag-impelled cargo.

HUMANITARIAN AID CARGO

The APL Advantage

Comprehensive service network

- APL's extensive international shipping and intermodal network connects you to just about anywhere in the world
- Global availability cargo handling facilities, with in-location expertise

Certified equipment

- USAID certified food trans-load facilities to handle your cargo at origin and destination
- Food grade and FGIS (Federal Grain Inspection Service) inspected containers available globally upon request

Consistent and reliable schedules

- Weekly sailings and fixed port rotations that make planning for shipments easy
- Online shipment visibility tools allow you to track and monitor the status of your cargo along the supply chain
- Custom reporting available upon request

Quality documentation

- In-house documentation capabilities to suit your requirements
- Local customs and documentation knowledge for fast clearance

Flexible delivery solutions

- Delivery options customized to suit your varied needs, including door-to-door service and different de-stuffing and re-loading options
- Ship in bulk or containerized units for your convenience
- Different pickup and delivery locations for the same shipment possible
