

CMA CGM Strengths

- More Sustainable Intermodal & Inland Transport Solutions to all strategic locations
- 28 maritime services connecting with Rail & Barge Solutions to/from Belgium
- Flexible solutions with CMA CGM through Benelux port gateways
- Reaching Belgium in 2 days with Ramp delivery when barge. Athus by Rail Ramp delivery in 3 days

Reduce your CO2 footprint with Green Truck

- CMA CGM Group is committed to reducing the carbon footprint of its activities on land and providing sustainable services by barge & rail.
- To go further, we are investing with green truck solution using Hydrotreated Vegetable Oil (HVO) when barge & rail options are not available.
- 90% less Co2 emissions in Belgium, Germany and France through Antwerp.

Tariff validity: until further notice
