BMSB FUMIGATION **SERVICES**

BE COMPLIANT WITH ANTI-BMSB MEASURES

Brown Marmorated Stink Bug represents a significant risk to cargo and biosecurity in Australia and New Zealand. That's why, anti-stink bug measures are implemented for goods manufactured in or shipped from, target-risk countries.

As an importer, comply with these seasonal measures and requirements of the Australian Department of Agriculture and the New Zealand Ministry of Primary Industries to prevent infestation of BMSB with our service.

YOUR BENEFITS

COMPLY WITH LOCAL REQUIREMENTS

Receive certificates issued by an approved offshore fumigator to fully comply with requirements of the authorities and avoid penalties, the risk of shipments being refused entry and returned to origin or destroyed.

BENEFIT FROM AN ALL-IN-ONE SERVICE

Enjoy peace of mind by choosing our complete service package with fumigation services, inland transport and customs clearance.

HOW DOES IT WORK?

3 COMPLIANT METHODS*

The used methods are compliant with the requirements from the local Quarantine departments:

- Methyl Bromide
- Sulfuryl Fluoride
- Specific heat treatments
