Digitalize Your Global Supply Chain with TradeLens

- **The platform provides advanced visibility, digitalized supply chain ecosystem and fully secure environment**
- **CMA CGM, a founding member of TradeLens, the blockchain-based digital platform that revolutionizes freight management for its customers**

Key benefits of TradeLens

TradeLens is the world's largest containerized freight blockchain platform.

The key strength of TradeLens is its ecosystem composed of shippers, freight forwarders, ports and terminals, ocean carriers, intermodal operators, government authorities, customs brokers and more. Each entity shares information that can be tracked, stored and actioned across the platform throughout a shipment's journey.

By using TradeLens, you will:

- **Expand your end-to-end visibility**
- **Streamline all your processes**
- **Enhance partner collaboration**
- **Manage digitally all your documentation**
- **Save time and reduce costs**

To learn more about the TradeLens platform and how you can join it, head to:
