Update on Situation in Tianjin

Dear Valued Customer,

By now you are certainly aware of the recent explosion in the Binhai area of Tianjin. We wish to take this opportunity to update you on the situation as it exists today.

Firstly, all CMA CGM Tianjin staff are fine, and are returning to work.

As far as port operations are concerned, six out of seven container terminals have reopened for vessel operations but are still operating with low efficiency. Loading and discharge of dangerous cargoes are prohibited until further notice.

The bulk of the damage appears to be in the off terminal depot areas approximately 2 miles from the terminal. Access to depots is only beginning to resume, so we are still in the process of assessing damage and identifying affected units. We expect more information to be available in the coming days. If any U.S. shipments are determined to be affected, we will immediately contact the involved parties.

We thank you for your patience and understand during this crisis,

Best regards,
CMA CGM (America) LLC
