

ONE PLACE, ONE CLICK

MY CMA CGM

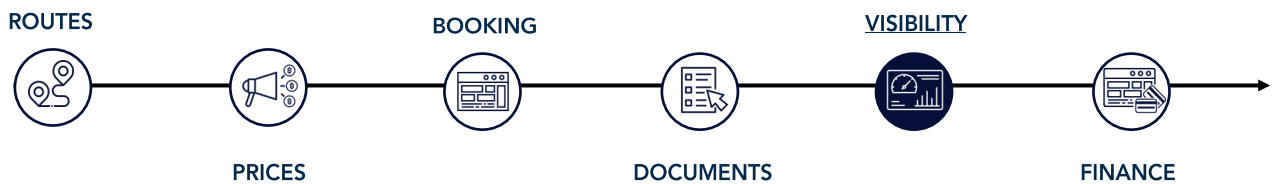

MY ANL MY APL MY CNC

SHIPMENT DASHBOARD

ALL YOUR SHIPMENT INFORMATION CENTRALIZED IN A SINGLE PLACE

SHIPMENT DASHBOARD allows you to get a centralized view of your shipments. It gives you access to all information per shipment or per container.

HOW DOES IT WORK?

1. Access this feature through "My CMA CGM*" > "Quick Access" > "View my Shipment Dashboard".
2. Follow your shipments by container or shipment views.
3. Find your shipments based on any information (POL, POD, container, shipment reference) with the global and intuitive search bar.

YOUR BENEFITS

- Save time by having all information related to your shipment and container visible in a single dashboard.
- Optimize your process. Relevant actions can be taken based on your shipment lifecycle: schedule, extract and customize reports.
