

## New CMA CGM Mobile Application

*just load it up!*

CMA CGM reinforces its eBusiness offer with a **new user-friendly mobile application**.

*Also available on tablet*

The new mobile application offers a **simplified interface** aligned with the **latest standard**. It is more intuitive and will offer a seamless experience by sliding from one menu to another.

On top of the current functionalities, a **News** menu has been added to inform you in real time of the latest shipping events of CMA CGM Group.

## Find your container with Shipment Tracking

Track and trace your shipment, getting a clear understanding of all the steps from the Place of Receipt (PLR) to the Place of Delivery (PLD), including the various transport solutions, vessels and shipping lines on which your shipment is assigned.

## Look up specific schedules for any vessel or voyage, or use our routing finder

Use the CMA CGM App to search for specific vessel schedules, voyages, or use our routing finder.

Directly plugged to the CMA CGM's Information System, the App will provide information and optimized routing solutions picked among more than 200 shipping lines and over 400 vessels calling 420 ports all around the world.

## Bookmark and Share

When using the App, every single search can be bookmarked for an easier management of multiple shipments. Just log back on the App and click on your bookmarks to quickly get all the information you need.

You can also share your search results to keep people informed of your shipment's status, news, or any other information accessible within the App.

## Stay up-to-date with the latest news

Read all the CMA CGM Group's latest News to stay up-to-date with the Group's activity. You can easily filter which categories you want to see whether you're interested in service updates, corporate information, etc.

## Contact CMA CGM easily

Whether you need help or have any question, you can contact our teams easily through the App using our Customer Service Tool.
