CARE
Protect your business

CONTAINER HUMIDITY CONTROL

Preserve the quality of your humidity-sensitive cargo from origin to destination with our range of dehumidification services.

YOUR BENEFITS

Thanks to special container preparations, the quality of your cargo will be preserved regardless of transport conditions.

CAPABLE OF MEETING SPECIAL NEEDS

- Electronic devices.
- Cargo with high-fibre content: furniture, handicrafts, agricultural products (grain, cocoa beans, onions, avocados, etc.), clothes and other fabrics.
- Packaging materials: pallets, cartons and cardboard.

PRESERVE YOUR CARGO'S QUALITY

Some goods are particularly sensitive

HOW DOES IT WORK?

CMA CGM experts will help you choose the most suitable option for your type of cargo. For example:

- **Bamboo flooring:** we can supply containers with eco-friendly bamboo flooring, which has natural humidity-control features.
- **Carton/Craft Lining:** we can line the interior of your container with cardboard or craft paper.
- **Silica Gel:** we can insert bags of silica gel into your container to protect your products from humidity.
- Other possible solutions upon request.
